# Bring the Plight of Chained Dogs to Life for your Children and your Students!

**C**hance is a beagle puppy who is just like every other dog—he wants a home and a family to love him. When he loses his first home and is sent to the shelter, he is devastated—until he is adopted by a boy and his mother, and life seems like it will be good again.

But he has a little problem with leaving “puddles on the floor”. Without the proper training, he ends up in a horrible place—stuck at the end of a chain.

Like all dogs, he remains faithful to his family, and patiently waits for love to return.

A twist of fate sets him free to seek a better life. Will Chance finally find the loving inside home and family he deserves?

Hits the following Humane Education aspects for coursework: • Irresponsible breeding and the need for spay/neuter • Dumping dogs at shelter • Misuse of caging • Chaining for life • Strays and the dangers they face.
